

OPUS LUBRICANTS PRODUCT DATA

T.F.R. CONCENTRATE

Description

OPUS T.F.R. Concentrate is a heavy duty vehicle cleaning liquid for cleaning bodies, alloy wheels, chassis, tilts and taut liners on commercial vehicles, and is designed for use through mechanical power wash systems. Highly concentrated and may also be used to clean machinery, floors, walls and asphalt. Special formula removes copolymer waxes in new vehicle production.

Benefits

- Safe and very economical in use.
- Suitable for bodywork, chassis and machinery.
- Will leave a streak free finish.
- Ideal in all kinds of spraying equipment.
- Rapidly removes road film and soilage.

Where to Use

For fast and efficient cleaning of heavy road film from cars, industrial and commercial vehicles. Excellent results are achieved with automatic vehicle washing equipment, portable high pressure cleaning equipment and brush wash machines.

Not for use on anodised wheels.

How to use

Hand wash for light soilage: Dilute 1:60 parts hot or cold water
High Pressure washing for heavy soiling: Dilute 1:350 parts hot or cold water

Spray the vehicle ensuring that all surfaces are covered with the solution, leave for 1 minute and then rinse thoroughly using the high pressure sprayer and clean water.
